December 10, 2018

Garry Jessup  
P.O. Box 246  
Hillsville, VA 24343

Dear Mr. Jessup:

On March 16, 2005, by Resolution of the Board of Supervisors you were requested to resign immediately from the Hillsville Volunteer Fire Department. In addition, you were no longer permitted to operate any Emergency Services equipment, and/or Fire Truck, or Emergency equipment which was owned by and/or titled to the Carroll County Board of Supervisors. These actions were a result of a grant application you submitted to the Commonwealth with materially false information.

Since then, the Hillsville Volunteer Fire Department has voted to reinstate your active membership and has requested that you be reinstated and allowed to operate Carroll County Emergency Services equipment.

As a result of the request for the suspension to be lifted, I would make the release contingent to the following condition: You may NOT hold any office or leadership role in the Hillsville Volunteer Fire Department or any other Emergency Services operation in Carroll County

If the accepted conditions are not followed, or should any other disciplinary issue arise related to your participation in the Hillsville Volunteer Fire Department, the suspension release will be revoke and the suspension of 3/16/2005 will reinstated permanently.

If you are in agreement with the above, please sign, date and return the original document to the County Administrator's office within ten (10) days of this letter. Otherwise, the above offer of release is automatically revoked.

Sincerely,

Steve Truitt  
County Administrator of Carroll county

Cc: Board of Supervisors  
Everett Lineberry

I, Gary Jessup, do hereby agree with the conditions of the release of my suspension of operating Carroll County Emergency Services equipment and if any of the conditions are not followed, I will be immediately and permanently suspended from operating Carroll County Emergency Services equipment on a permanent basis. I also understand that Carroll County is not directing Hillsville Volunteer Fire Department or asking that they take any action. The Hillsville Volunteer Fire Department may institute any restrictions as a non-profit organization as they deem fit with regard to this or other issues.

---

Garry Jessup
