

MEMO

To: Carroll County Board Of Supervisors
From: R. Cellell Dalton
Date: 10-7-2019
Subject: Wired Road Connection Agreement

I request that the Board of Supervisors review the Wired Road Connection Agreement for properties at 237 and 239 Farmers Market Drive.

The Wired Road Authority
1117 E. Stuart Drive
Galax, VA 24333
9/24/19

A **free** Internet fiber connection to The Wired Road broadband network can be installed at your home or business.

Carroll County Board of Supervisors
605-1 Pine Street

The Wired Road has received a grant to bring high speed Internet fiber service in your neighborhood. This is a \$1,200-\$2,500 value that increases your home value by up to \$7,000.

The Wired Road will install this at NO CHARGE to the first **thirty** property owners that request it.

Your properties at
237, 239 FARMERS MARKET DR
qualify for this free offer.

Some of your neighbors have already taken advantage of this opportunity, and there are a limited number of additional free connections—don't wait if you want to get super-fast Internet.

Once the connection has been installed on your property, you can order a package of Internet service at a modest monthly charge from the Internet Service Provider of your choice (see the enclosed flyer for the providers offering Internet).

Time is limited! Funding for connections is only available during the current construction period. The connections will be made on a first come first served basis for as long as the budget allows.

Please review the information on the flyer, and if you would like to receive a free connection to the network return the **Connection Agreement** enclosed with this letter.

For more information you may contact us at drops@thewiredroad.net.

Sincerely,

The Wired Road Team

Connection Agreement

The Wired Road Authority

The Wired Road Authority has been awarded an Appalachian Regional Commission Grant and has obtained other funding to construct a five mile fiber extension and free fiber connections in Carroll County. Under this grant, a connection to The Wired Road regional broadband network can be provided at your location, an approximate \$1,200-\$2,500 value. You will then be able to purchase services from the service providers that operate on The Wired Road.

Yes, I accept a fiber connection to The Wired Road network that will provide my home/business with fiber access to telecommunications services from several competing providers but I have not ordered a service from a Wired Road provider.

Yes, I accept a fiber connection to The Wired Road network that will provide my home/business with fiber access to telecommunications services from several competing providers. I have attached a service order confirmation from a Wired Road provider.

No, I do not accept.

IMPORTANT: If you are renting. This agreement must be signed by the Owner of the Property.

OWNER: By my signature below, I, as the owner of this property, authorize The Wired Road Authority to connect this structure to The Wired Road Broadband Network. I also grant permission to the Authority's Construction Contractor and other agents to enter my property for the purpose of constructing and inspecting said construction connection. This permission is predicated on the basis that the contractor will restore my property to a condition equal to or better than when the work commenced. If the work to be performed is only for installation of a connection to The Wired Road, no additional documentation of my authorization is necessary. If the work to be performed includes construction of any other kind, my signature on an additional contract will be required prior to the commencement of work. I understand that my contact information will be shared with Wired Road providers to allow them to contact me regarding services over my connection.
