December 9, 2020

I have been very thankful for the free public Wi-Fi available at the Galax Public Library and other library locations. Due to this free service they've offered during the pandemic, I've been able to continue my education despite not having internet access at home. This service has been beneficial to me and for others in the community as well. With public schools and colleges moving coursework to all online and others having to work away from the office, this transition can be especially hard if you don't have access to a reliable internet source. Our public library already offers so many resources to encourage learning and enrichment, but this service in particular really helps a lot of people in our community during these challenging times.

Christa Mitchell-Hayes
